Antonius Vincent Jung

Bandung, Indonesia | (+62) 851-5662-4768 | antoniusvincent09@gmail.com

PROFILE

Informatics Graduate (S.Kom.) from Telkom University with a cumulative GPA of 3.9/4.00, specializing in Artificial Intelligence, Machine Learning, Computer Vision, and Full-Stack Web Development. Proven experience in building end-to-end AI applications, machine learning workflows, and Laravel-based web platforms through industry internships and capstone projects. Seeking entry-level roles or internship opportunities in AI/Data Science, Software Engineering, or Full-Stack Web Development to drive innovative tech solutions.

EDUCATIONS

Telkom University (Tel-U), Bandung, Indonesia *2022 – 2026*
Bachelor of Computer Science (S.Kom.) in Informatics | GPA: 3.9 / 4.00
Thesis: *Push-Up Posture Quality Classification Using Lightweight LSTM Networks and MediaPipe Joint Angle Extraction*
Publication: Accepted for publication and presented at IEEE ICoDSA 2026

Fransiskus Senior High School Bandar Lampung, Lampung, Indonesia *2019 – 2022*
Science Major (IPA)

EXPERIENCES

AI Engineer, Capstone Project (SCANORA)
Coding Camp 2026 by DBS Foundation, via Dicoding *February 2026 – June 2026*

- Completed a structured national AI Engineer training program through Dicoding's courses, covering machine learning workflows, model development, and deployment.
- Built SCANORA, an AI-powered fruit freshness detection app, as capstone project in a 5-member cross-functional team (Data Scientist, Full-stack, AI Engineer); served as AI Engineer responsible for the computer vision model and inference API.
- Developed a fruit ripeness classification model (Unripe/Ripe/Rotten) across three fruit types and contributed to a 0–100 freshness scoring system integrated with an AI-based recommendation feature powered by Gemini Flash.

Full Stack Developer Intern
Balai Penelitian Tanaman Pemanis dan Serat, Malang *July 2025 – September 2025*

- Developed a web-based seed sales e-commerce application using the Laravel framework and MySQL to digitize transactions that were previously done manually.
- Designed an efficient backend architecture and API to support key features such as product catalog, transaction management, and payment monitoring system.
- Built a responsive user interface (UI) using Blade and JavaScript through team collaboration with Agile Software Development methodology.

Practicum Assistant, Algorithm Programming
Telkom University Faculty of Informatics Practicum Laboratory *February 2025 – July 2025*

- Supervised and guided more than 40 students in weekly practical sessions for the Algorithmic Programming course.
- Evaluated and provided feedback on students' practical work each week.

Member of Publication and Documentation Division
Computing Competitive Programming 2024 by Computing Laboratory *October 2024 – December 2024*

- Contributed to the creation of various promotional content, including Instagram posts, posters, and competition certificates.
- Documented events and ensured the smooth technical running of competitions.

Practicum Assistant, Data Structures

Telkom University Faculty of Informatics Practicum Laboratory *September 2024 – January 2025*

- Supervised and guided more than 40 students in weekly practical sessions for the Data Structures course.
- Evaluated and provided feedback on students' practical work each week.

Lecturer Assistant, Algorithm Programming

Telkom University Faculty of Informatics *January 2024 – July 2024*

- Contributed to the question development team for the Algorithm Programming course at the Faculty of Informatics.
- Assisted lecturers in conducting lectures, including preparing course materials.
- Conducted supplementary learning sessions and mentored over 40 first-year students in understanding Algorithm Programming concepts, improving their grasp of case studies and problem-solving methodologies.

Member of Publication and Documentation Division

Mulang Tiyuh 2024 *December 2023 – March 2024*

- Created diverse content, including Instagram posts and posters, to support event publication and documentation needs.
- Participated in roadshows to introduce Telkom University to various public and private high schools across Lampung Province.
- Contributed to the documentation of Mulang Tiyuh 2024's main event, an educational seminar.

Member of Publication and Documentation Division

Mulang Tiyuh 2023 *December 2022 – March 2023*

- Created diverse content, including Instagram posts and posters, to support event publication and documentation needs.
- Participated in roadshows to introduce Telkom University to various public and private high schools across Lampung Province.
- Contributed to the documentation of Mulang Tiyuh 2023's main event, an educational seminar.

Member of Logistics Division

Gema Siger 2022 *October 2022 – December 2022*

- Managed event resource procurement, including securing venue permits and coordinating with vendors for equipment needs.
- Ensured the smooth execution of the event by overseeing all logistical arrangements.

CERTIFICATIONS & TRAINING

- AWS Certified AI Practitioner (AIF-C01) *valid: October 2026 – October 2029*
- AI Agent for Data Analytic with Langflow, IBM Skillsbuild x Hactiv8 2026
- AI Engineer Cohort, Coding Camp by DBS Foundation 2026
- HCIA-AI V4.0 Course, Huawei ICT Academy 2025
- Microsoft Certified Azure AI Fundamentals (AI-900) 2025
- Data Classification and Summarization with IBM Granite, IBM Skillsbuild x Hactiv8 2025

SKILLS

- **Web & Software Development:** Laravel, PHP, Node.js, HTML, CSS, JavaScript, RESTful APIs
- **Programming Languages:** Python, Java, C++, SQL
- **AI, Machine Learning & Data:** Computer Vision, Object Detection, Human Pose Estimation, TensorFlow, MediaPipe, Pandas, Matplotlib, Seaborn
- **Developer Tools & Frameworks:** Git, GitHub, Figma, Google Colab
